

Sèrie 1

TEXT: Michael Slezak, CLIMATE CHANGE PREDICTED TO IMPACT COFFEE-GROWING AREAS, *The Guardian* [online] (August 29, 2016)

Cada pregunta val un punt. En les qüestions d'elecció múltiple, es descomptaran 0,33 punts per error; en la resta, es descomptaran 0,05 punts per cada falta d'ortografia, de morfologia, de lèxic o de sintaxi. Si una falta es repeteix, només es descomptarà una vegada.

Choose the correct answer (1-8).

1. **b)** will fall.
2. **a)** will become smaller and smaller.
3. **d)** have said climate change is a danger to coffee.
4. **c)** is the source of income for millions of people.
5. **a)** will have to pay more for coffee in the future.
6. **b)** The presence of disease on coffee plants has increased.
7. **c)** rely
8. **a)** as

Please answer the following questions in English. (Please do not copy text but rather answer in your own words, your answer should be between 40 and 60 words in length.)

9. The text states that farmers could plant at higher grounds or further from the equator, or use other types of production systems that are not so affected by disease or pests, but these options are practically impossible without outside help because coffee farmers are poor.

10. It will change the taste, aroma, and price of coffee.

The rest of the answer is open.
